

All India Coordinated Research Project for Dryland Agriculture

Monthly Technical Progress Report

I. Weather data (with data on details on rainfall intensity)

II. Experiments - Progress

1. Whether all the experiments conducted as per the technical program, if not , give specific reasons (info to be given at the beginning of the season only)
2. Data generated and analysis undertaken as per technical program in various experiments:
 - Soil (moisture, other physical chemical etc.) samples analyzed
 - Crop (for nutrient analysis, growth parameters, yield etc.) and water (quality if any) samples analyzed
 - Crop data recorded
 - Data on hydrological parameters like run off, soil loss etc.
3. Infrastructure developed
 - Equipment purchased (as per approved items)
4. Progress on IT related activities like procurement, development of Decision Support System (DSS) etc.

Signature of Chief Scientist/ In-charge sub-center/ In-charge ORP)

Counter Signature by Chief Scientist (in case of ORP)
